

The following illustrates how to install the bin extension and bin stat bracket for Bevariety ACIB units.

Installation

1. Remove the ice machine or bin cover from the unit.
2. Retain bin cover if ice maker is not installed.
3. Place the Bin Extension on the dispenser.

NOTE

- Rounded corners face the front of the unit.
- Square corners face the rear of the unit.
- The lower flange (lip) of Bin Extension should be facing down.
- The top of the Bin Extension surface has a seal (shown as shaded area)

4. Reinstall the existing Bin Stat Bracket and ice machine or bin cover.
